Price List

This list contains PRICES ONLY—it is not a "short form" catalog.

See our other "Publications" for descriptions and complete catalog numbers with prices.

MRL Catalog numbers come in two flavors: 6-digit numbers (for instance 21J205), priced below; and 12-digit numbers (for instance 241-570-480-104), priced below and on the reverse side.

For the **6-digit numbers**, the price is determined by the first digit (designating tape width), and the letter (designating tape speed). The second digit and the last three digits (shown below by underscores) don't affect pricing. Thus, for example, the price for a 21J205 is determined under 2_J__.

Oscilloscope Graticules G-080, G-100, or G-125 for Fast-swept Frequency	10 \$
---	-------

For the **12-digit numbers** (below and on the reverse side), the price is determined by the first digit (tape width), second digit (tape speed), 10th digit (package—hub, reel, cartridge, etc), and 11th digit (total tape duration). Thus the price for a 132-102-482-407 is determined under 13_ - ___ - ___-40_.
